

Whoever you are, wherever you are and whatever your level of NVC,
if you are interested in this experience of communal learning YOU are welcome to join us.

Life-Enriching Education Lab

April 22-28 2019 Berlin

Info and Registrations at www.nvcineducation.org

THE LIFE-ENRICHING EDUCATION LABORATORY(LEE LAB) IS CREATED FOR EVERYBODY...

...interested in exploring and applying Nonviolent Communication (NVC) in education, including, adult students, kindergarten teachers, school and university teachers, child care staff, administrators, counsellors, educators in youth programs, parents, NVC trainers, Certification Candidates, and all NVC practitioners.

THE LABORATORY HAS A COMMON VISION FOR LEARNING AND IS MULTINATIONAL ...

...and is an inclusive space for exchange and learning on mutual education with experienced trainers, who are there to create the frame, hold space, offer guidance and feedback, motivation and input: Corrylaura Van Bladel, Belgium, Shona Cameron, UK, Gabriele Grunt, Austria, Marianne Göthlin, Sweden, Giacomo Poleschi, Italy and Towe Widstrand, Sweden.

WHAT TO EXPECT

The Life Enriching Education Laboratory (LEE LAB) is uniquely designed to offer both a structured and open learning environment. The LEE LAB is an opportunity to share, explore and learn together so that in these 6 days you will have the experience of co-creating a life-enriching learning community and truly living the values of NVC in an educational setting.

We aim to co-create a safe and supportive learning environment with you, where everybody is seen as a teacher and learner and where everyone that wants to, would come out with clarity and action plans for their life-enriching education project.

Concretely and very practically we will work on how to:

- * Co-create a safe and supportive learning and working environment including pupils, teachers, parents and administration staff.
- * Role model partnership, inclusion and cooperation - cultivate emotional intelligence, respect, and compassion.
- * Resolve conflicts and prevent or de-escalate violence.
- * Support pupils to know their potential find intrinsic motivation to learn.
- * Build communication skills which support standing up for own needs while also taking in the perspective of others and the community as a whole.
- * Create the classroom you always dreamed of.

"In EVERY session there was space to exchange and I could experience the meaning of 'power with' energy instead of 'power over'.

I discovered that co-creation is 'the form' in which 'power with' can flourish."

"I learned and experienced a new way of sharing knowledge, with curiosity and fun."

"The LEE LAB contributes to my further ability to embody and implement NVC for myself and at school."
